

## Cigarette Aluminum Foil | Packaging | Haomei

[Cigarette aluminum foil](#) is dedicated to the application on cigarette liner packaging area. We are offering many aluminium foil solutions for cigarette packing with different color, differently printing pattern, laser aluminum foil paper and transferred aluminum foil paper etc. It's available in different size, thickness. The environmental-friendly feature is also our advantage on top of its features of strong tensile strength and beautiful looking.

### The types of smoking aluminum foil are:

1. Silver cigarette aluminum foil paper (Bright & Dumb)
2. Golden cigarette aluminum foil paper (Bright & Dumb)
3. Printed cigarette aluminum foil paper
4. Holographic cigarette aluminum foil paper
5. Embossing cigarette aluminum foil paper

### Specifications of aluminum foil for cigarette packaging:

Material	Aluminum Foil (Single-side Coated)
Color	Golden, Silver (or as request)
Alloy	1235/8011/8079
Length	1500-1800mm
Width	81-86 mm
Gram Weight	50-70 gsm
ID Of Inner Core	76 mm
Features	Environmental-friendly, High tensile strength
Base Paper Grammage	30±2gsm - 40±2gsm
Aluminum Foil	6.5±0.5mic
Total Thickness	0.045±0.01mm - 0.055±0.01mm
Tensile Strength	≥ 18.75N/15mm
Folding Strength	≥ 20times
Molding Degrees	≥ 30degree
WVTR	≤ 3.0gsm*24h

Paper Whiteness	$\geq 75\%$
Moisture Content	$6 \pm 2\%$
Fluorescent Whiteness	$\leq 1.0\%$
Eab	$\leq 2.0$

**Process of aluminum foil for cigarette:**

We strictly control the quality over each production process steps of cigarette aluminum foil paper:

- 1#. Raw Material Feeding (Paper + Aluminum Foil)
- 2#. Gluing & Overlap & Compounding & Laminating
- 3#. Aluminum Foil Paper Drying
- 4#. Printing On Paper Bobbin
- 5#. Drying & Embossing
- 6#. Slitting Into Paper Bobbins
- 7#. Unloading & Packing
